## ML – Keeping You Safe & Secure

We are delighted to share with you news that ML Financial Associates has been awarded the Cyber Essentials certification.

Cyber Essentials is an effective Government backed scheme that helps protect organisations against a whole range of the most common cyber-attacks. Cyber-attacks come in many shapes and sizes, with the vast majority very basic in nature – the digital equivalent of a thief trying your front door. At ML we are aware and take very seriously the threat that these attacks could pose. We understand the importance of the safety and security of our data and the defences and protection we have in place to avoid any of these attacks and so we are delighted to receive this certification which is awarded by the National Cyber Security Centre.

We hope this most recently awarded certification (which you will soon be able to see both on our website and our emails) reassures that at ML we continue to strive to be the best we can be in all areas of the business.
